Rahul Bhammarker

Summary

Full Stack developer with strong expertise in javascript and javascript based frameworks and technologies. Experience in designing and developing interfaces and backend APIs, having good debugging and testing skills. Good knowledge of DevOps and application architecture. Experience in insurance, banking and e-commerce domains. Passionate about Web Technologies with 7 years of experience in different roles, domains and technologies. Azure Certified.

Skill Highlights

- JavaScript ES5 - ES6 ★★★★★
- AngularJS v1 – 6 ★★★★★
- NodeJS ★★★★★
- ReactJS ★★★★★
- Gulp, Grunt and Webpack ★★★★★
- Docker, Kubernetes ★★★★★
- Azure, AWS ★★★★★
- J2SE, J2EE ★★★★★

Experience

Zensar Technologies, United Kingdom – June 2018 to Present

- **Client: The Automobile Association, Basingstoke**
 - **Project: Agile Enterprise**

Integration of the third party car hire providers 'The Enterprise' with The AA's breakdown management system.

 - Involved in analyzing requirement and design development of extended features of the application both FrontEnd and Backend (React AngularJS, Nodejs).
 - **Project: BOLT Ecosystem**

A nodejs microservice based ecosystem with different databases and different user centric B2B, B2C frontend applications.

 - Involved in analyzing requirement and design development of extended features of the application (Angular v1.5).
 - Implemented backend services as API in Nodejs to support the application with the ecosystem.
 - Involved in underlying the infrastructure and its orchestration using Azure cloud services.

- **Project: Retailer Application**

An responsive single page application to keep track and manage the fleet of vehicles given to a supplier to repair or give on hire to the customers.

 - Involved in analyzing requirement and design development of extended features of the application (Angular v1.5).
 - Implemented backend services as API in Nodejs to support the application with the ecosystem.

Zensar Technologies, Pune – Dec 2016 to June 2018

- **Client: Mastercard, Pune**
 - **Project: GDPR (General Data Privacy Regulation System)**

The General Data Protection Regulation (GDPR), agreed upon by the European Parliament and Council is the primary law regulating how companies protect EU citizens' personal data.

 - Involved in analyzing requirement and design development of the front end (Angular v5)
 - Implemented B2C aspect of the Systems to track and manage the personal data requests.
 - **Project: Customer Contact Management**

It is a tool which provides Member information with cross-reference lists of principal and association members by ICA number, bank identification number (BIN), and alphabetical member name. This product enables user to search an online database for the information needed for a contact within the system.

 - Involved in analyzing requirement and design development of the front end (Angular v4)
 - **Project: Mastercard Connect**

It is a B2B portal, enabling secure and targeted interactions with the customers. It is delivered through a consistent, integrated and tailored workspace of applications and information, which helps to ensure that users have access to appropriate levels of functionality and data.

 - Involved in analyzing requirement and design development of the front end (Angular v1.5)
 - Involved in deployment, debugging and providing solutions for platform interface related bugs and cross browser compatibility issues.
 - **Project: Loyalty Management**

MasterCard Loyalty and Reward Solutions designs and manages innovative, customized loyalty programs to help card issuers acquire, retain, and grow their best customers. As a card issuer, one needs every edge.

 - Involved in debugging and providing solutions for user interface related bugs and cross browser compatibility issues.

Hotwax Systems, Indore – Aug 2014 to Dec 2016

- **Client: SPEL Technologies Inc**
 - **Project: Merscythe an online Python learning for physically impaired people**

Rainbow Cultural Garden is an early child-development program which, through careful progressive exposure to multiple languages, cultures, representational systems and aesthetics, seeks to inspire and capture the miraculous, creative, learning lives of children.

 - Involved in analyzing requirement and design development.
 - Designed and Implemented complete Angular application.
 - Involved in providing solutions for integration of the Angular application with OFBiz.

- **Client: RCG: Rainbow Cultural Garden**
Rainbow Cultural Garden is an early child-development program which, through careful progressive exposure to multiple languages, cultures, representational systems and aesthetics, seeks to inspire and capture the miraculous, creative, learning lives of children.
 - Involved in analyzing requirement and design development.
 - Designed and Implemented complete Angular application.
 - Involved in providing solutions for integration of the Angular application with OFBiz.
- **Project: HotWax Commerce: Apache OFBiz powered custom ERP system**
 - Designed various front end modules using AngularJS.
 - Implemented procurement enterprise module.
 - Involved in End-to-end designing and implementing UI/UX solutions for service product using workEffort model.
 - Implemented end-to-end manufacturing module.
- **Project: HotWax Projects (CRM): Customer Relationship Management.**
 - Implemented in house project of HotWax Systems to manage, track and analyze customer interactions.
 - Involved in analyzing requirement and design development.
 - Involved in designing the front end (AngularJS) as well as server-side programming (Service API in Moqui).
 - Data & Service modeling using Survey Data Model, front-end design using Bootstrap & AngularJS.
 - Involved in application documentation (Acceptance Test Case, User Stories, SRS and Requirement Traceability Matrix).

Accomplishments

- AZ-900 Certified
- Ranked under top 50 teams in Angular Attack hackathon 2016.
- Volunteered the biggest Hackathon of India (Amplitude 2017) organized by Mastercard under cashless India campaign.
- A recognized contributor of an Apache open source project called Apache OFBiz.

Education

Bachelor of Engineering: **Computer Science and Engineering** – 2010 - 2014
Oriental Institute of Science and Engineering (RGPV), Bhopal

Higher Secondary: **PCM** - 2010
West Central Railway School New Yard, Itarsi
